# Restructuring?

We need to bring people together,  
in a structured way,  
to improve complex social systems.

Sharing goals and measures of success accelerates  
the pace of change.

# Proposed Goals of next Sub-committee meetings

- What are the key issues of your area?
- What are the key drivers of the issue?
- What resources are required?
- What are the key indicators we need to measure to show progress in this area?

# In the near future...

- Collect relevant data to establish a baseline.
- Use a Scorecard with indicators to show continual progress.

# Proposed Action Steps

- Sub-committees need to set up bi-weekly meetings
- Come together again as a whole to establish a unified action plan.
